

# KANDU Connection

January 31, 2017

## Supported Community Employment

KANDU is pleased with the recent success and expansion of the Supported Community Employment program (SCE). Currently working with over 60 clients, SCE's services have more than doubled over the past year.

KANDU's Supported Community Employment program connects with area businesses in an effort to help identify and develop job opportunities within the community for persons with barriers to employment. This offers them the opportunity to pursue greater independence to meet their full potential. Employees are pre-screened, trained on-site and professionally monitored at no cost, all while working within their particular skill set and area of interest.
